Description

While doing some design research on the internet, I ran across an Egyptian water jar whose design I immediately fell in love with. Little did I know the difficulties I would encounter in assembly and tooling choices.

This handmade leather table centerpiece is made from saddle leather, it was hand dyed using eco friendly dyes, and I also added a water resistant treatment since one of the favorite uses is that as a flower vase.

By using the best quality saddle leather that money can buy my customers are provided with a piece of artwork that could easily last 100 years with just minimal care and maintenance. No glue was used in joining the edges because this type of braid, properly applied, results in a very secure form of fastening.

Whether your choice of display is by using this piece as a flower vase or if you chose to display it as a stand alone piece of art, you will enhance any table and room.

Size: 6.75 inches Wide X 16.5 inches High

Material: Saddle Leather and leather lace

Color: Tan

Included is a bud vase measuring 6.5 inches High 1.25 inches in diameter. The top of this piece is flared at the top and the glass bud base is held in place in the neck of this piece.

The bottom opening of the centerpiece is approximately 3.0 inches X 3.0 inches allowing you to place the centerpiece over a vase of your choice.

Description

I handmade this leather table centerpiece from saddle leather, hand dyed it, added a water resistant treatment and it is intended to last 100 years. Inspiration came from the TV show "I Love Jeannie" and the love between the two main characters played by Larry Hagman and Barbara Eden. The love shared for these two led me to add the celtic knot titled intertwined love.

This piece is designed to be used as a flower vase or a stand alone item with other western or southwest decor. The braiding I used on the edges was created using the same methods employed by master craftsmen making horse saddles in the 1800's before they had sewing machines.

Description

This unique hair-on-cowhide wallet is a truly one of a kind product that you will get compliments on a daily basis. I designed and made my first one for me to carry my business cards in. I soon found that when I gave a business card to someone the next thing they wanted to know about was could I make one for them. My son who has had one for years says its great for those times when he doesn't want to carry his big bulky wallet but still needs to have cash and credit cards with him.

Look closely at the edges and you will notice that I have used a beautiful stair step braid to not only join the two edges together but to also enhance its beauty.

The stock number for this one is 9117-03-1411.
